

Congratulations

MOTIONWORKS
BUSINESS OF THE MONTH | FEBRUARY 2013

Address: 1158 Westowne Drive,
Neenah, Wisconsin 54956
Established: 2010
Telephone: (920) 215-2050

Get Better. Faster.

MotionWorks Physical Therapy is an out-patient physical therapy practice for patients seeking high quality, manual physical therapy from experienced, licensed physical therapists. Its hands-on approach to care delivers faster results for all types of injuries, but is an especially beneficial approach for post-operative, sub-acute or chronic injuries that have not responded to the typical physical therapy approach. MotionWorks also provides runners evaluations, sports performance evaluations and training, and custom-made foot orthotics.

MotionWorks Physical Therapy was nominated because of the superior customer service it provides to patients. MotionWorks was started by Jill Murphy (owner/lead physical therapist) so that she could provide a level of service that she was unable to provide while working for a large hospital system. "Steps from the Door" parking, flexible hours and the ability to see the same therapist each time are just some of the differences that create the over-the-top customer service. The clinic has an upscale boutique vibe rather than a sterile medical clinic environment. They stretch past the décor by offering gourmet flavored coffee (or hot chocolate for non-coffee drinkers) to each patient, current magazines to read, free WiFi and letting patients choose the type of music they'd like to listen to while being treated.

The Chamber proudly salutes Jill Murphy and her team for being the February Business of the Month.

If you know of a Chamber member that deserves recognition, please nominate them at <http://applications.foxcitieschamber.com/>.
